Education

The University of Texas at Dallas

B.S. Computer Science, 3.6 GPA

Richardson, TX

Aug 2021 - May 2025

Skills

Language and Libraries

JavaScript, Typescript, Java, C++, React, Node.js, Python, PowerShell

Platforms and Frameworks

Git, MongoDB, Firebase, MySQL, Azure, Next.JS, Tailwind CSS

Work Experience

Lumina

Remote

Web Developer

Jun 2023 - Present

- Leveraged Next.js, React, and CSS modules to create a responsive and engaging UI/UX, resulting in improved user retention and satisfaction
- Collaborated with backend developers to establish secure OAuth workflows, implementing industry best practices to safeguard user data and privacy
- Designed and implemented API routes to enable efficient communication between the frontend and backend, optimizing data retrieval and updates

Textron

Hurst, TX

Infrastructure Intern (Cloud Operations)

May 2023 - Aug 2023

- Developed PowerShell scripts to sync Azure resources with ServiceNow's CMDB and resolved discrepancies to ensure that the CMDB is accurately populated with up to date information
- Collaborated with teams to address challenges and enhance integration between Azure and ServiceNow
- Identified and automated repeatable tasks using PowerShell to improve work efficiency

Schulz Shoes LLC

Melissa, TX

Managing-Member

Sep 2020 - Dec 2022

- Founded and operated a business specializing in sales of limited edition consumer goods and apparel. Sourced and sold hundreds of thousands of dollars worth of products annually.
- Managed and grew a complex Discord marketplace with 200,000 members, fostering a vibrant community for buying and selling scalper bots.

Projects

Food Finder

Typescript, CSS, React, Node.js, MySQL

Apr 2023 - Jun 2023

- Designed and Developed a dynamic web application designed to help users discover exciting dining options
- Utilized Yelp's API to retrieve restaurant options based off user preferences, delivering a unique and personalized experience
- Implemented a Node.JS/Express backend to handle API requests, and used MySQL to store user restaurant preferences and account data

WriteRight

Javascript, CSS, React, Node.js, MongoDB, Figma

ACM Development

Sep 2022 - Dec 2022

- Created a full-stack web application designed to help streamline creative writing processes
- Collaborated with a cross-functional team to design and develop an intuitive user interface
- Developed a CRUD API using Node.js to interact with MongoDB, enabling efficient data manipulation and retrieval.

Fude

Javascript, CSS, React, Node.js

Nov 2022 - Nov 2022

- Developed a full-stack web application to generate free food coupons
- Reverse engineered undocumented API's using Burp suite to generate free food vouchers
- Developed a custom API to efficiently integrate and organize external API calls
