## Education

### The University of Texas at Dallas

B.S. Computer Science, 3.656 GPA

Richardson, TX

Aug 2021 - May 2025

- **Relevant Coursework:** Data Structures and Algorithms, Computer Architecture, Computer Science 2

## Work Experience

### Textron

Infrastructure Intern (Cloud Operations)

Hurst, TX

May 2023 - Aug 2023

- Developed PowerShell scripts to sync Azure resources with ServiceNow's CMDB and resolved discrepancies to ensure that the CMDB is accurately populated with up to date information
- Collaborated with teams to address challenges and enhance integration between Azure and ServiceNow
- Identified and automated repeatable tasks using PowerShell to improve work efficiency

### Schulz Shoes LLC

Managing-Member

Melissa, TX

Sep 2020 - Dec 2022

- Managed all facets of business operations, including financial tracking, inventory coordination, and marketing
- Successfully handled a high volume of sales, processing and managing transactions totaling hundreds of thousands of dollars on a yearly basis

### Bot Mart

Online Escrow Agent

Melissa, TX

Sep 2020 - Dec 2022

- Managed a digital marketplace with nearly 200,000 members and served as an online escrow agent, ensuring smooth operations, providing a secure and reliable platform for customers

## Projects

### Food Finder

Typescript, CSS, React, Node.js, MySQL

Apr 2023 - Jun 2023

- Developed a dynamic web application designed to help users discover exciting dining options
- Utilized the Yelp API to seamlessly retrieve and present restaurant options tailored to individual user preferences, delivering a unique and personalized dining experience
- Implemented user authentication and authorization mechanisms, ensuring secure access to personalized features like saving restaurants to a favorites list
- Enhanced user interaction and enjoyment through interactive elements like a spinning wheel for restaurant selection

### WriteRight

Javascript, CSS, React, Node.js, MongoDB, Figma

ACM Development

Sep 2022 - Dec 2022

- Created a full-stack web application designed to help streamline creative writing processes
- Collaborated with a cross-functional team to design and develop an intuitive user interface
- Developed a CRUD API using Node/Express.js, with Mongoose as the ORM to interact with MongoDB, enabling efficient data manipulation and retrieval.

### Fude

Javascript, CSS, React, Node.js

Nov 2022 - Nov 2022

- Developed a full-stack web application to generate free food coupons
- Designed and implemented the user interface using React and CSS
- Reverse engineered undocumented API's using Burp suite to generate free food vouchers
- Developed a custom API to efficiently integrate and organize external API calls

## Skills

### Language and Libraries

JavaScript, Typescript, Java, C++, React, Node.js, Python, PowerShell

### Platforms and Frameworks

Git, MongoDB, Firebase, MySQL, Azure, Next.JS, Tailwind CSS
